PRESERVATION & STORAGE SOLUTIONS

# TRANSPORT FRAMES & STEEL PALLETES

Bryan Industries is now a leader in the design and manufacturing of certified transport frames and steel pallets within the Mackay region across all industries. Our in house team designed the transport frames and steel pallets turning ideas into reality through innovative thinking. Bryan Industries are committed to providing safer alternatives for all of our customers.

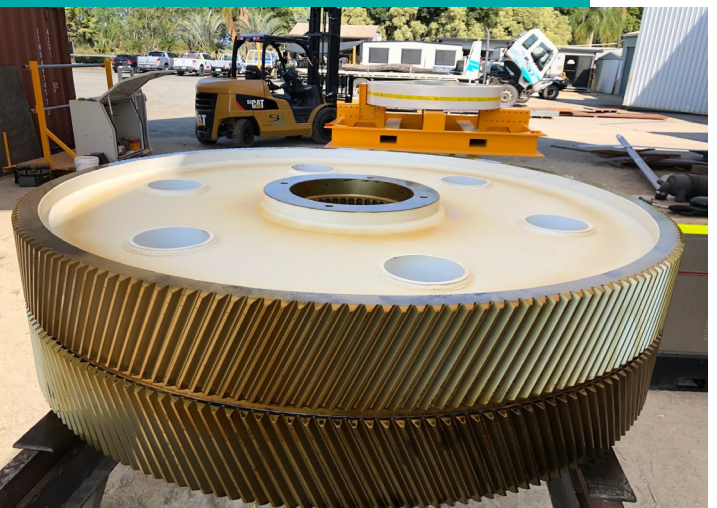

# PRESERVATION

Bryan Industries have a dedicated and experienced team that can carry out all preservation functions through Intercept Wrapping processes and supplied Intercept Technology products. Our dedicated

preservation facility allows Bryan Industries to provide critical spare preservation services to all industries ensuring long life storage solutions for gearing, shafts, pinions, motors, sheaves and pulleys.
