BRYAN INDUSTRIES

- Bob Bryan together with his son Damien started Bryan Fabrications in Mirani in 1996. During this time they gained extensive knowledge and experience in all facets of fabrication for a variety of industries around Mackay and the Bowen Basin region. Bryan Industries was then formed in 2005 when Bob retired and Damien became sole owner and director of the business.

- Since 2009 Bryan Industries have gained experienced management in Danny de Waard Operations Manager, Matt Attard Workshop Manager and Clinton Venz as the General Manager to provide innovative

solutions to our key clients within the resource, energy, ports, food and infrastructure industries. Their expertise in mining, machining and manufacturing enabled the company to grow and expand its capabilities and operations offering the whole package from design, engineering to installation through a dedicated team of professional tradesman and staff.

- This strong management team have an excellent reputation and pride themselves on producing high quality outcomes for all clients.

DIRECTOR DAMIEN BRYAN

Damien started Bryan Industries in 1996, and since then has gained extensive knowledge and experience in all facets of steel fabrication. With this experience and knowledge gained over 23 years of being in business, Damien has developed trusted relationships with all clients and suppliers within the region to continually be at the forefront of steel innovation and design.

THE TEAM

Bryan Industries offer a workforce that has over 50 years of combined engineering and mechanical experience, gained from working in the mining, sugar, food processing, water and construction industries. Our team of approximately 50 employees consist of fully qualified supervisors, boilermakers, diesel fitters, painters, riggers, trade assistants, apprentices, administration staff and subcontractors all with a commitment to safety leadership, development and quality of work ensuring complete customer satisfaction.

WORKSHOP FABRICATION

Bryan Industries is located at 25 Interlink Court, Paget in Mackay & also has a Facility in the Pioneer Valley which enables easy access to both the agricultural and mining industries within the region. Bryan Industries has positioned itself as one of the foremost heavy manufacturing companies in Mackay. The workshop facilities service a wide range of clients. A floor space of more than 4,000m² and yard space of 4.5 acres, where we can cater for small and large projects at the same time. Coupled with our accurate and reliable steel fabricating, machining, blast and painting equipment, Bryan Industries guarantees a level of safety, precision and quality to meet your expectations.

Our Inverter Welding technology and highly-qualified certified welders means we can satisfy the requirements of Australian Standard AS/NZS 1554. In addition, our 600 amp welding capacity, with bare and flux cored wires, enables us to offer a huge range of welding options to satisfy almost any requirement. Our open factory layout allows us to progress your job through our different Workshop Stations, which include Punching, Guillotining, Bending and Machining to achieve the quickest possible turnaround for each project.

HEAVY FABRICATION

Bryan Industries is renowned for the quality of its heavy fabrication work, and is experienced in a multitude of applications across the industry. Our company's strong reputation in this area stems from our ability to view any given project in its entirety and to assess where cost advantages can be gained. When it comes to general steel fabrication, Bryan Industries is

essentially a "Custom Job" workshop, capable of producing almost anything across a multitude of industries and applications. We place an emphasis on repeatability of heavy fabrication, and our highly trained and experienced personnel remain focused on each project from start to finish.

TRANSPORT FRAMES & STEEL PALLETS

Bryan Industries is now a leader in the design and manufacturing of certified transport frames and steel pallets within the Mackay region across all industries. Our in-house team designed the transport frames and steel pallets turning ideas into reality through innovative thinking. Bryan Industries are committed to providing safer alternatives for all of our customers.

PRESERVATION

Bryan Industries have a dedicated and experienced team that can carry out all preservation functions through Integra Wrapping processes and supplied Intercept Technology products.

Our dedicated preservation facility allows Bryan Industries to provide critical spare preservation services to all industries ensuring long life storage solutions for gearing, shafts, sheaves and pulleys.

Bryan Industries provide specialist onsite teams and equipment with proven safety leadership and quality which enhances the value and performance of our clients assets across the resources, energy, ports, food processing and infrastructure industries. Total asset management services covering mechanical and structural maintenance for fixed and mobile plant. Our employees are experienced, qualified and client focused. Their goal is to fulfil our client engagements safely, on time and within an agreed budget.

MIRANI YARD

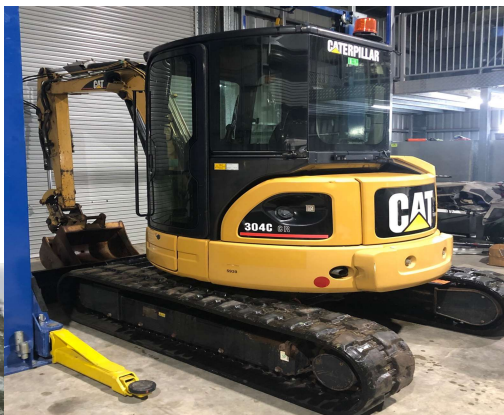

Bryan Industries have a dedicated and experienced team with the capacity to take on all of your tray, blade and bucket refurbishment needs at our Mirani operations. The Mirani yard is set on 5 acres and includes a large workshop with overhead crane, Blast & Paint facility & all working at heights machinery required to complete all projects safely.

LABOUR & EQUIPMENT HIRE

Bryan Industries offer labour and equipment hire for a wide variety of situations and needs. Our recruitment services are flexible and effective, for both long and short term contract engagements. We pride ourselves on being a registered labour hire provider within the region. Bryan Industries is at the forefront of supplying quality and experienced labour across all industries. Our labour hire sector is highly experienced and adept at assessing your

company's expectations and selection processes to identify the best recruits to fulfil your role. All of our employees are BMA core and Standard 11 inducted with working at heights and confined space competencies already uploaded on our training matrix to provide a streamlined process from office request to onsite engagements.
